## **DETAILED ACTION**

### ***Inventorship***

This application currently names joint inventors. In considering patentability of the claims under 35 U.S.C. 103(a), the examiner presumes that the subject matter of the various claims was commonly owned at the time any inventions covered therein were made absent any evidence to the contrary. Applicant is advised of the obligation under 37 CFR 1.56 to point out the inventor and invention dates of each claim that was not commonly owned at the time a later invention was made in order for the examiner to consider the applicability of 35 U.S.C. 103(c) and potential 35 U.S.C. 102(e), (f) or (g) prior art under 35 U.S.C. 103(a).

### ***Allowable Subject Matter***

Claims 1-10 are allowed.

The following is an examiner's statement of reasons for allowance: The examiner has reviewed the prior art in light of applicant's claimed invention and finds that the claims define over the prior art. The cited prior art does not disclose or suggest the combined limitation of a process to form a stacked semiconductor device inter alia the limitations "depositing and patterning an insulating layer on the substrate surface, a surface region of the doping region being uncovered; depositing a metal-containing layer on the insulating layer and the surface region; processing the substrate during a first step in a process chamber at a first temperature in a first atmosphere containing hydrogen, for a first time duration, resulting in metal silicide being produced from a part

of the metal-containing layer and a part of the doping region; subsequently processing the substrate during a second step at a second temperature in a second atmosphere containing less than 10% hydrogen and more than 90% nitrogen, for a second time duration to convert a remaining part of the metal-containing layer into metal nitride".

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
